MEMORANDUM FOR: [redacted]

Critical Intelligence Problems Committee
[redacted]

FROM: [redacted]

Chief, Special Security Center
Office of Security

SUBJECT:

Terms of Reference, Narcotics Intelligence
Protection

REFERENCE:

8 September 1983 Memo for Panel Members

1. If there must be a policy directive, it seems appropriate that it originate from the DCI who alone possesses the statutory responsibility for the protection of intelligence sources and methods.

2. You have already incorporated in your attachment to the 8 September note for Panel Members the critical issues I believed should be addressed in any policy statement.

25X1

[redacted]

4. I believe that DD/I's involvement in the production of finished intelligence such as crop predictions and links to international terrorism does not pose a dissemination problem, the involvement of sensitive HUMINT sources in DD/O reporting remains un-addressed.

25X1

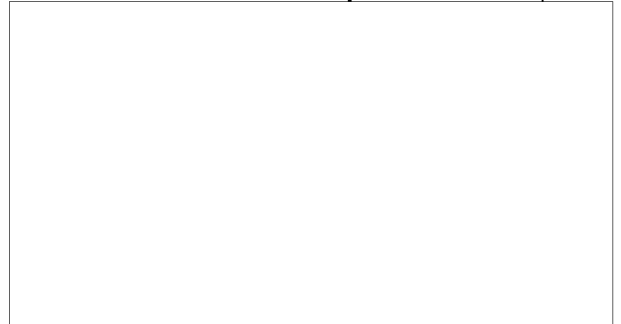

[redacted]

~~SECRET~~

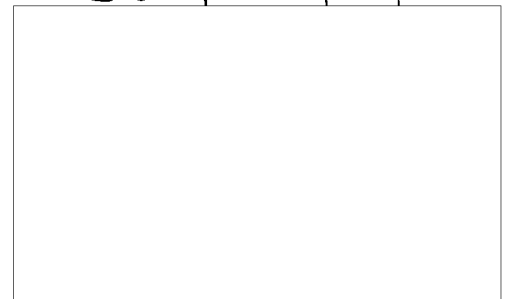

SECRET

5. I note, in passing, that the military issues collateral **SECRET** clearances based upon National Agency checks (NAC's) without any background investigation. This could be a very weak link in the protection of the intelligence we furnish, which is the rationale for insisting that the recipients meet DCID 1/14 standards.
